MEMBRA-BASE 200

POWERFUL ALKALINE CLEANER FOR MEMBRANES

For industrial and food plant use. Powerful alkaline cleaner with caustic soda and sequestering agents to clean membranes compatible with high pH levels. Synergetic combination of complexing agents improving cleaning action and reducing mineral accumulation on surfaces. Removes promptly and efficiently tough build-ups of organic contaminants and allows recovering the initial permeation rate.

Brooms & Handles

	Description	Dimensions	Code	Compatible With
1	SOFT BRISTLE POLYESTER BROOM - Narrow rigid bristle broom with straight neck. Ideal for hard-to-reach spots.	260 mm (10")	53-3104(X)	6 9
2	SOFT POLYESTER BROOM - Large soft bristle broom. Ideal for sweeping fine particles.	610 mm (24")	53-3199(X)	6 9
3	STIFF BRISTLE ANGLE CUT BROOM - Angled for easier access to tight spaces.	290 mm (11.4")	53-2914(X)	6 9
4	SOFT/STIFF BRISTLE POLYESTER BROOM - Broom with hard & soft bristles.	410 mm (16")	53-3174(X)	6 9
5	BEVELLED EDGE DUSTPAN - Heavy-duty dustpan with bevelled edge for easy debris pickup.	280 mm x 330 mm (11" x 13")	53-5660(X)	17 (p. 12)
6	ERGONOMIC ALUMINUM HANDLE - Comfortable aluminum handle improves working position.	1,300 mm (51")	53-2935(X)	1 2
		1,500 mm (59")	53-2937(X)	3 4
7	ERGONOMIC ALUMINUM HANDLE - Small ergonomic aluminum handle improves working position.	650 mm (25")	53-2981(X)	10 (p. 12)
8	QUICK-CONNECT TELESCOPIC HANDLE - Adjustable and ergonomic quick-connect telescopic waterfed handle.	1,600 mm to 2,900 mm (63" à 114")	53-2973Q(X)	11 (p. 11)
9	ULTRA HYGIENIC POLYPROPYLENE HANDLE - Fully moulded handle and grip minimizes risk of cross contamination.	1,300 mm (51")	53-2960(X)	1 2
		1,500 mm (59")	53-2962(X)	3 4

*Some products may take roughly 3 weeks for delivery.

Foot Baths

	Description	Format	Code
1	DISINFECTING FOOT MAT – black.	24" x 32" (61 cm x 81 cm)	59-TE70073
2	LARGE DISINFECTING FOOT MAT – black.	32" x 39" x 2 1/2" (81 cm x 99 cm x 5 cm)	59-222
3	CARBO-BLAST - Granular floor sanitizer for use in food plants. Combination of quaternary ammonium-based compounds and peroxide sanitizes and deodorizes floors in one step.	22 kg	09-10137-22
		214 kg	09-10137-45
4	QUAT-BLAST - Powder floor sanitizer. 3 rd generation quaternary ammonium-based formula prevents unwanted odours. No expensive dilution equipment required.	15 kg	09-10135-15
		135 kg	09-10135-13

**Some products may take roughly 3 weeks for delivery.*

BOOT SCRUBBERS

	Description	Format	Code
1	LARGE BOOT SCRUBBER with bottom sole brush, 230 V.	Bottom brush only	85BLX1000S
		2 ½" disc side brushes	85BLX1000R
		3" vertical brushes	85BLX1000V3
		6" vertical brushes	85BLX1000V6
		9" vertical brushes	85BLX1000V9
2	DRY MANUAL BOOT SCRUBBER	Single	85BLX100D
3	MANUAL BOOT SCRUBBER WITH SPRAY	Double	85BLX200D
		Single	85BLX100W
4	SINGLE BOOT SCRUBBER with bottom sole brush.	Double	85BLX200W
		Stationary side brushes	85BLX400
5	COMPACT BOOT SCRUBBER with bottom sole brush, 115 V.	3" rotating side brushes	85BLX600
		6" rotating side brushes	85BLX6006
		Bottom brush only	85BLX800S
6	LUXURY BOOT AND HAND SANITIZER - Foot bath and hand sanitizing unit. Constructed of stainless steel with high traction, fiberglass-reinforced walkway grate and adjustable feet for easy levelling.	2 ½" disc side brushes	85BLX800R
		3" vertical side brushes	85BLX800V3
		6" vertical side brushes	85BLX800V6
		9" vertical side brushes	85BLX800V9
		48 ½" x 47 ½" x 46 ½"	85FBHSMR
7	AVALANCHE - Foaming footbath sanitizer. Produces stable, rich and abundant foam. Excellent spectrum of efficiency.	4 L	09-10011-04
		20 L	09-10011-20
		205 L	09-10011-45
		1 000 L	09-10011-55

*Some products may take roughly 3 weeks for delivery.

No-Rinse Sanitizers

	Description	Active Ingredient(s)	Format	Code
1	ALCO SPRAY - Ready-to-use fast-evaporating no-rinse cleaner and sanitizer. Ideal or quickly treating surfaces in direct contact with food. Designed for high-risk contamination areas.	Alcohol	1 L	09-10005-11
			4 L	09-10005-04
			20 L	09-10005-20
			205 L	09-10005-45
2	ALCO WIPES FC - Ready-to use fast evaporating sanitizing wipes. For hands and hard non-porous surfaces in contact with food.	Alcohol and quaternary ammonium	150 disposable wipes 7" x 7 1/2" (18 cm x 19 cm)	09-10013-85
3	ALCO H & S - Ready-to-use fast evaporating cleaner and sanitizer for hands and hard surfaces in contact with food.	Alcohol and quaternary ammonium	1 L	09 10006-11
			4 L	09 10006-04
			20 L	09 10006-20
			205 L	09 10006-45

Disinfecting Wipes

	Description	Active Ingredient	Format	Code
4	ULTRA WIPES - Presaturated sanitizing wipes. Kills a broad spectrum of germs. Safe to use on most surfaces. Single-use wipes help prevent cross-contamination.	Quaternary ammonium	150 disposable wipes 7" x 7 1/2" (18 cm x 19 cm)	0912595-11

Biofilm Control

	Description	Format	Code
5	BIODETECT - Biofilm detector. Detects the presence of biofilms on surfaces in food processing plants. Aids in ensuring food safety and protecting product brands.	100 mL	09-10110-10
		710 mL	09-10110-70
6	BIODESTROY - Foaming disinfectant. Kills biofilms that can form on hard, non-porous surfaces, on equipment and in drains. Helps to maintain food safety by eliminating potential bacterial outbreaks with just a 5-minute contact time.	18.5 L	09-10215-18
204 L		09-10215-45	
7	JR. PUMP-UP FOAMER PUMP-UP - Spray nozzle adjusts from stream to foam spray.	48 oz	53-7549
8	FOAM-IT PORTABLE FOAMER	20 gal	84-FI-20NK
9	FOAMING ACCESSORY FOR DRAINS	N/A	84-DFA

**Some products may take roughly 3 weeks for delivery.*

Detergents

Dislodges dirt to clean clothes

	Description	Type	Cleaning	Quantity per Load	Use In	Format	Code
1	GREEN CHOICE LAUNDRY DETERGENT - Advanced formula cleans heavily soiled clothes but is gentle on fabric. For all water temperatures.	Liquid	North American washing machines only Compatible with HE machines	Top loader: 60 to 90 mL (2 to 3 oz) Front loader: 90 to 120 mL (3 to 4 oz)	All types of water	4 L 20 L	17-08615-04 17-08615-20
2	SOIL BOSS - Laundry detergent with excellent sudsing ability. Tough on stubborn soil. Contains optical brighteners to leave fabrics vividly clean.	Liquid	High temperature	120 mL (4 oz)	All types of water	20 L	17-08600-20

Additives

SOFTENER

Softens fabrics

	Description	Type	Cleaning	Use In	Format	Code
3	LAUNDRY SOFT - Concentrated fabric softener. Contains surfactants and optical brighteners. Eliminates static cling while leaving fabrics soft and silky.	Liquid	Low temperature	All types of water	4 L 20 L	17-08700-04 17-08700-20

LIQUID BLEACH

Whitens fabrics

	Description	Type	Cleaning	Use In	Format	Code
4	DESTAIN 12% - Concentrated chlorine bleach for optimal results on whites. Not recommended on colours.	Liquid	Light soil - 90 to 120 mL (3 to 4 oz) (50 ppm) Moderate soil - 120 to 180 mL (4 to 6 oz) (75 ppm) Heavy soil - 180 to 240 mL (6 to 8 oz) (100+ ppm)	All types of water	20 L	17-08820-20

Liquid Activator

Boosts the cleaning power of detergent and keeps colours bright

	Description	Type	Cleaning	Use In	Format	Code
5	ALKALI BUILDER - pH booster for alkalinity. Provides extra-deep cleaning without dulling or fading colours.	Liquid	Light soil - 150 mL (5 oz) Medium soil - 240 mL (8 oz) Heavy soil - 420 mL or more (14 oz or more)	Soft water	20 L	17-08800-20

*Some products may take roughly 3 weeks for delivery.

Soaps

	Description	Format	Code	Fits Dispenser
1	TROPICAL - Hand soap with a pH balanced to match that of the skin. Leaves hands and skin feeling soft and smooth. Pleasant melon scent.	4 L	89-12040-04	10 11
2	ACTIV - Hand soap with PCMX containing superior quality ingredients plus emollients to soften hands. Produces a rich and abundant foam. Pleasant mint scent.	4 L	13-10001-04	10 11
		205 L	13-10001-45	
3	CLEAR FOAM HANDWASH - Mild handwash for routine cleaning in food processing settings.	2,000 mL	90-5267-02	12
4	DISINFECTING FOAM HANDWASH - Foam handwash with chloroxylenol (PCMX) for washing and disinfecting hands in one step. Effective against degrading microorganisms and foodborne illnesses.	1,250 mL	90-8819-03	9
5	SO-CLEAN - Gel hand soap containing abrasives to easily remove grease, ink, rust, paint, tar and other stubborn dirt. Pleasant cherry scent.	4 L	89-12205-04	15

Sanitizers

	Description	Format	Code	Fits Dispenser
6	VERT-2-GO X-PURE GEL - Gel hand sanitizer containing 72% ethyl alcohol plus olive oil and vitamin E moisturizers to soften skin. Recommended for organic production under CAN/CGSB-32.311 and 310.	500 mL	09-12460-50	10
		4 L	09-12460-04	
7	X-PURE - Liquid hand sanitizer containing 72% ethyl alcohol plus olive oil and vitamin E moisturizers to soften skin. Recommended for organic production under CAN/CGSB-32.311 and 310.	500 mL	09-12455-50	10
		4 L	09-12455-04	
8	PURELL INSTANT HAND SANITIZER - Fragrance-free, dye-free gel with moisturizers to leave hands feeling soft and refreshed.	1,000 mL (bag)	90-2156-08	13

**Some products may take roughly 3 weeks for delivery.*

Dispensers

	Description	Format	Code	Compatible With
9	GOJO ADX-12 SOAP DISPENSER - Push dispenser for foam soap. High-capacity design with large sight window for easy checking of refill level. Can be locked.	4.64" x 3.94" x 11.89"	57-ADX8884-06 57-8888-06-2	4
10	LIQUID SOAP AND LOTION DISPENSER - 900 mL tank with hidden removable backplate and water resistant lid. Accepts a wide variety of liquid soaps and lotions, including antibacterial, antiseptic and antimicrobial soaps.	4 1/2" x 4" x 6 1/4"	57-09330	6 7
11	FOAM-EEZE SOAP AND SANITIZER DISPENSER - Made of durable ABS plastic. Refillable bottle with large vented screw cap for easy refilling. Accepts bulk foam soap and sanitizers.	1,000 mL	57-09352	2 6 7
12	GOJO FMX-20 HAND SOAP DISPENSER - Lockable push dispenser.	6.5" x 4.65" x 11.66"	57-FMX5270-06 57-5271-06	3
13	LOCKABLE PUSH DISPENSER - Push dispenser for gel sanitizer.	1,000 mL	57-2120-06	7
14	STAINLESS STEEL HAND SOAP AND LOTION DISPENSER - Multi-purpose dispenser for 4 L (1 gal) containers. Elbow-operated.	17 1/4" x 4" x 9 1/2"	57-1310	1 6
15	SO-CLEAN DISPENSER - For SO-CLEAN abrasive soap. Fits 4 L containers.	N/A	57-ASC105SC	5

*Some products may take roughly 3 weeks for delivery.

Hand Towels

	Description	Dimensions	Colour	Code
1	TANDEM MECHANICAL HAND TOWEL DISPENSER - Stub-roll transfer mechanism minimizes waste. Mechanical no-touch design minimizes cross contamination.	11.2" x 15.2" x 9" (29 cm x 39 cm x 23 cm)	White	63-C205
			Black	63-C203
2	ROLL HAND TOWELS - Hand towels with green core. Made from 100% recycled fibre with a minimum of 60% post-consumer fibre and whitened without chlorine.	7.5" x 775 ft (19 cm x 236 m)	Natural	63-T105
			Ivory	63-T104
			White	63-T106
3	MULTI-FOLD HAND TOWELS - Green Seal certified towels. Made from 100% recycled fibre. Combines the power of green clean with quality, economic and environmental performance.	9" x 9.45" Folded dimensions: 9" x 3.2"	White	63-H170

Facial Tissue

	Description	Quantity	Code
4	ENVIROLOGIC® WHITE 2-PLY FACIAL TISSUE - Made from 100% recycled fibre with a minimum of 40% post-consumer fibre. Efficient, functional and economical. Ideal for all settings.	30 boxes of 100 tissues per box	63-404404

Brushes (cont'd)

	Description	Dimensions	Code	Fits
9	TUBE BRUSH FOR FLEXIBLE HANDLE – 200 mm (8") - Medium bristles ideal for flexible handle. Suitable for cleaning pipes in dairies, breweries, wineries and fisheries.	Diameter: 60 mm (2.3")	53-5356(X)	53-53515
10	CYLINDRICAL MEDIUM PIPE CLEANING BRUSH – Bristles along sides and tip ideal for cleaning various types of tubes, including meat mincers.	Diameter: 76 mm (3")	53-538077(X)	6 (p. 1)
		Diameter: 100 mm (4")	53-5380103(X)	6 (p. 1)
11	STIFF SHORT HANDLE UTILITY BRUSH – Stiff bristles effectively brush any type of surface. Ergonomic grip more comfortable during lengthy cleaning tasks. Ideal for cleaning equipment, walls and work surfaces.	250 mm (9")	53-4192(X)	N/A
12	MEDIUM SHORT HANDLE UTILITY BRUSH – Medium bristles ideal for pairing mechanical action with a chemical solution. Ergonomic grip improves comfort during lengthy cleaning tasks. Ideal for cleaning tables and equipment.	250 mm (9")	53-4190(X)	N/A
13	TANK BRUSH – Hedgehog-shaped for efficient cleaning of tanks, containers and evacuation pipes.	210 mm (8")	53-7037(X)	6 9 (p. 1)
14	DISH BRUSH WITH SCRAPING EDGE – Medium bristles and scraping edge ideal for detailed cleaning of small detachable parts and hard-to-reach areas on production lines.	280 mm (11")	53-4237(X)	N/A
15	ANGLE HIGH-LOW BRUSH – Stiff brush ideal for cleaning baseboards and vertical surfaces as well as for maintaining pipes and manholes. Angle of brush allows user to keep handle parallel to the floor for easier cleaning under equipment.	265 mm (10.5")	53-7047(X)	6 9 (p. 1)
16	LONG HANDLE UTILITY BRUSH – Long handle reaches into hard-to-access areas of equipment. Stiff angled bristles ideal for cleaning machines, deep buckets, containers and tubs or anywhere else requiring a longer reach.	415 mm (16.5")	53-4186(X)	N/A
17	SOFT POLYESTER HAND BRUSH – Soft bristles and ergonomic handle ideal for sweeping fine particles such as flour from food preparation surfaces, tables and equipment.	330 mm (13")	53-4587(X)	5 (p. 1)

*Some products may take roughly 3 weeks for delivery.

Bucket

	Description	Format	Code	Fits
1	GRADUATED BUCKET WITH SPOUT - Drip-free spout, sturdy stainless steel handle and hand grip that's lifted from the base. Ideal for transporting cleaning chemicals and both hot and cold ingredients. Graduated for a variety of measurement units. Flat side prevents spillage. Withstands temperatures up to 250°F (120°C).	6 L (1.5 gal)	53-5688(X)	N/A
		12 L (3 gal)	535686(X)	N/A

Squeegees & Scrapers

	Description	Format	Code	Fits
2	STAINLESS STEEL SCRAPER - Table and floor scraper with stainless steel blade. Suitable for removing caked-on, sticky and encrusted debris from floors and equipment. Suitable for cleaning rotary kilns.	260 mm (10 1/4")	53-2910(X)	6 9 (p. 1)
3	SINGLE BLADE SQUEEGEE WITH HANDLE - Ultra-hygienic single-piece squeegee with single blade. Soft and flexible blade easily removes excess water and debris from tables and other surfaces.	245 mm (9.65")	53-7125(X)	N/A
4	FLEXIBLE POLYETHYLENE PADDLE SCRAPER BLADE - Flexible blade ideal for scraping out remaining food stuff from containers prior to cleaning. Can double as a spatula for large or medium-sized containers.	505 mm (20")	53-7013(X)	6 9 (p. 1)
5	FOAM DOUBLE BLADE FLOOR SQUEEGEE - Ideal for all types of floors; soft rubber reaches into crevices such as joints for superior cleaning. Blades can be easily removed for cleaning or replacing, making it a highly economical option.	505 mm (20")	53-7753(X) Replacement blade: White: 5377745 Black: 5377749	6 9 (p. 1)
		605 mm (24")	53-7754(X) Replacement blade: White: 53-77745 Black: 53-77749	6 9 (p. 1)
6	HYGIENIC DOUBLE BLADE FLOOR SQUEEGEE - Double blade squeegee ideal for rough and irregular floors requiring a high level of hygiene. Removable blade for easy cleaning and replacement.	505 mm (20")	53-7713(X)	6 9 (p. 1)
		605 mm (24")	53-7714(X)	
		700 mm (28")	53-7715(X)	
7	HAND-HELD SQUEEGEE - Excellent for scraping.	100 mm (4")	53-6962(X)	N/A

WHMIS Awareness

What is WHMIS?
WHMIS is a safe form for Workplace Hazardous Materials Information System. It provides information on the safe use of hazardous materials used in Canadian workplaces. Information is provided by means of product labels, Safety Data Sheet (SDS) and worker education programs.

Sensibilisation au SIMDUT

En quoi consiste le SIMDUT?
SIMDUT est l'acronyme de Système d'Information des Matières Dangereuses Utilisées au Travail. Ce système sert à fournir l'information sur l'utilisation sécuritaire des matières dangereuses utilisées au travail au Canada. L'information est divulguée sur les étiquettes de produits, les fiches de données de sécurité (FDS) et par l'entremise de programmes de formation à l'adresse des travailleurs.

WHMIS Classification For Our Products | Classification SIMDUT touchant nos produits

Flammable liquid and solids, Oxidizing powders
Liquides et solides inflammables, Poudres oxygénantes

Oxidizing liquid and solid
Liquides et solides oxygénants

Acute toxicity: fatal or toxic, Irritant, Harmful
Toxicité aiguë: mortelle ou toxique, Irritant, Nocif

Acute toxicity: very toxic, Irritant, Harmful
Toxicité aiguë: très toxique, Irritant, Nocif

Corrosive: skin corrosion, Serious eye damage
Corrosif: corrosion cutanée, Lésions graves aux yeux

These are general guidelines, refer to product SDS for specific information.

General Safety Precautions when handling chemical products:

- Do not breathe, inhale or get in eyes, on skin or on clothing
- Do not drink, eat or smoke
- Always wash your hands after handling
- Never use contact lenses
- Be aware of product incompatibility

Note: SDS is provided for the product in its concentrated form. Any dilution can affect product classification and suggested PPE.

Ce sont des lignes directrices générales, vous référer à la fiche de données de sécurité pour de l'information spécifique.

Précautions de sécurité générales :

- Ne pas respirer, inhaler, ni entrer en contact avec la peau, les yeux, les vêtements
- Ne pas boire, fumer ou fumer
- Toujours se laver les mains après la manipulation
- Ne jamais utiliser de lentilles de contact
- Être conscient des incompatibilités de produits

Note : Les fiches de données de sécurité sont faites pour le produit révisé. Les dilutions peuvent affecter la classification du produit et l'EPP suggéré.

*Some products may take roughly 3 weeks for delivery.

THE EQUIPMENT INCLUDED IN THIS SECTION IS RECOMMENDED FOR USE IN OFFICES AND OTHER COMMON AREAS AS WELL AS IN THE FOOD & BEVERAGE PROCESSING AREAS.

EQUIPMENT

WHY USE AN AUTOSCRUBBER?

Using an autoscrubber is more efficient for cleaning floors compared to using a mop and bucket, and provides better scrubbing action. It also reduces the risk of slips and falls since it dries floors immediately. And, because an autoscrubber always uses clean water and collects dirty water, it lowers the risk of cross-contamination.

CHOOSING AN AUTOSCRUBBER

Things to consider:

- The area of the floor to be cleaned.**
The amount of floor space you need to clean will often determine whether you need a portable, walk-behind (push) or ride-on scrubber. Also consider the machine's efficiency (sq ft/h). It will have a direct impact on the machine's lifespan and ability to lower labour costs.
- The type of dirt to be cleaned.**
Will the scrubber need to pick up small debris or will it be used primarily to minimize dust? Models with cylindrical brushes will pick up debris as they clean. For floors that are usually free of debris, a rotary or orbital disk model will allow for deeper cleaning.

Walk-behind

Portable

Ride-on

Rotary	Cylindrical	Orbital
 <p><i>Ideal for cleaning flat, smooth floors. Most widely used type of scrubber. Flat pad or a disc brush spins as cleaning solution is dispensed on the floor. Lowest cost of ownership.</i></p>	 <p><i>Great for uneven & debris-laden floors. No pre-sweeping needed. No separate broom/dust mop needed.</i></p>	 <p><i>Powerful scrubbing action makes it the best choice for deep cleaning. Cleans grout and removes impurities in floor finishes. Can also be used to remove commercial floor finishes without chemicals. Rectangular cleaning head makes cleaning corners, along walls and other hard-to-reach areas easier.</i></p>

WHY USE **SANIMARC** AUTOSCRUBBERS? HIGH-PERFORMANCE EQUIPMENT THAT'S DEPENDABLE, RUGGED, DURABLE AND EASY TO USE.

AW-211 B	
Cleaning path	11" (28 cm)
Type	Rotary brush (pad holder optional)
Performance	6,028 sq ft/h (560 sq m/h)
Solution capacity	3 L (0.8 gal)
Runtime	Up to 60 minutes
Code	65-108570

AW-211 B - Compact portable scrubber with 11" head. Li-ION battery for more power, longer runtime and quicker charging. Picks up water even in reverse mode.

AW-114 B	
Cleaning path	14" (35 cm)
Type	Rotary brush (pad holder optional)
Performance	11,300 sq ft/h (1,050 sq m/h)
Solution capacity	10 L (2.65 gal)
Runtime	Up to 90 minutes
Code	65-109293

AW-114 B - Compact floor scrubber with 14" head. Great for light cleaning in small spaces. Includes gel battery, built-in charger and brush.

AR-226 B, AR-230 B, AR-234 B and AR-228 BC - Compact ride-on scrubbers. More productive than walk-behind autoscrubbers. Various cleaning options and paths to choose from.

Cylindrical brush (BC)

AR-334 B, AR-340 B AND AR-336 BC – RUGGED, HIGH PERFORMANCE SCRUBBERS WITH INCREASED SCRUBBING AND SUCTION POWER FOR FASTER, DEEPER CLEANING. GREAT FOR LARGE AREAS AND HEAVY CLEANING TASKS.

AR-334 B

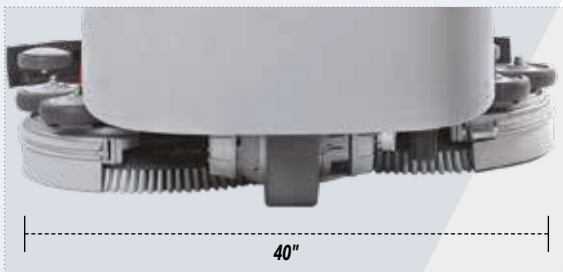

Cleaning path	34" (85 cm)
Type	Rotary ride-on twin disc
Performance	73,200 sq ft/h (6,800 sq m/h)
Solution capacity	156 L (41.2 gal)
Code	See options page 65

AR-340 B

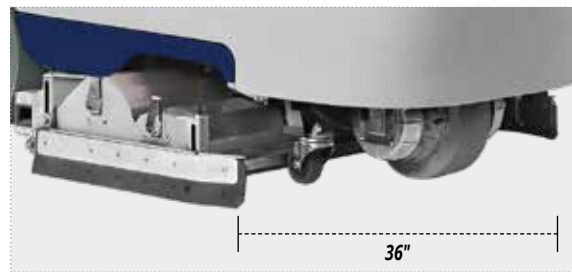

Cleaning path	40" (100 cm)
Type	Rotary ride-on twin disc
Performance	86,975 sq ft/h (8,080 sq m/h)
Solution capacity	156 L (41.2 gal)
Code	See options page 65

AR-336 BC

Cleaning path	36" (90 cm)
Type	Cylindrical ride-on
Performance	74,900 sq ft/h (6,960 sq m/h)
Solution capacity	156 L (41.2 gal)
Code	See options page 65

Rotary brush (B)

Cylindrical brush (BC)

Did you know?

Labour costs represent roughly **80%** of all expenses for cleaning companies.

<http://sanimog.sanimarc.com/autoscrubber-vs-map-bucket-which-one-makes-a-better-choice/>

WHY USE **TASKI** SCRUBBERS?
FOR THEIR EFFICIENCY, ERGONOMICS, TECHNOLOGY AND DURABILITY.

SWINGO 350 B

Cleaning path	15" (38 cm)
Type	Cylindrical
Performance	12,270 sq ft/h (1,140 sq m/h)
Solution capacity	10 L (2.65 gal)
Code	80-7516859

SWINGO 350 B - Compact scrubber that can pick up small debris. Front squeegee collects water even in reverse mode.

SWINGO 455 B

Cleaning path	17" (43 cm)
Type	Rotary
Performance	13,885 sq ft/h (1,290 sq m/h)
Solution capacity	20 L (5.3 gal)
Code	80-7518366

SWINGO 455 B - Compact scrubber. Small enough to clean under tables and other obstacles; big enough to clean open spaces.

SWINGO 755 B ECO

Cleaning path	17" (43 cm)
Type	Rotary
Performance	13,885 sq ft/h (1,290 sq m/h)
Solution capacity	40 L (10.5 gal)
Code	80-7516823

SWINGO 755 B ECO - Similar to the Swingo 755 B, but with fewer options, making it a more affordable choice.

SWINGO 2500 B

Cleaning path	28" (70 cm)
Type	Rotary, ride-on
Performance	56,510 sq ft/h (5,250 sq m/h)
Solution capacity	95 L (25 gal)
Code	80-8004741

SWINGO 2500 B - All-wheel steering system for greater manoeuvrability. Solution tank-bag system offers more capacity in less space, reducing the number of stops required.

SWINGO 755 B, 855 B, 1255 B, 1650 B and 1850 B - Easy-to-operate and maintain scrubbers offering outstanding cleaning and drying performance. Advanced technology and design includes ECO mode, superior traction and cleaning solution flow control.

CHOOSING A VACUUM

Choose your vacuum based on how it will be used (type of surface to be cleaned, type and amount of dirt that needs to be vacuumed, etc.) in addition to user preferences. Also consider the size of the area to be cleaned and the manpower available to do the work, along with the vacuum's weight and ergonomics, manoeuvrability, durability and ease of maintenance.

MAIN TYPES OF VACUUMS

Backpack	<i>Fastest, most efficient and most ergonomic way to pick up dry debris. User works in a neutral position, which increases mobility while reducing strain and risk of injury. Often offers more options for accessories and working methods for different applications (hard surfaces, carpets, overhead cleaning, etc.).</i>
Canister	<i>Designed for vacuuming dry debris. Fits most maintenance trolleys for easy transporting. Ideal for hard surfaces. Can also be used for cleaning carpets with the addition of optional tools.</i>
Upright	<i>Mechanical rotary brush offers better cleaning on carpets. Available with single or dual motors. Single motor models are generally lighter because the same motor drives both the suction fan and the brush head. Dual motor models have separate motors for suction fan and brush head and are often used in larger vacuums and/or for vacuuming high pile carpets.</i>
Wet/dry	<i>Vacuums both wet and dry debris. Generally used in industrial settings, restaurants or building lobbies.</i>

No matter the type of vacuum, we have **bags, accessories** and original **replacement parts** in stock ensuring optimal performance!

Battery-operated	<i>Growing in popularity because their safer operation increases productivity per hour. Ideal for cleaning hard-to-access areas such as stairs and elevators. Cordless operations means no backtracking to manoeuvre around obstacles. Power and runtime vary by model and brand.</i>
-------------------------	---

WHY CHOOSE PROTEAM, SANI MARC & TASKI VACUUMS? FOR THEIR QUALITY, EFFICIENCY, ERGONOMICS & DURABILITY.

PROTEAM

Backpack vacuums with optional cleaning tools to increase productivity for specific tasks such as cleaning ceiling fans, carpets, or removing bedbugs.

TASKI

JET SERIES -
Upright vacuums with dual motors for deep cleaning and large areas.

KÄRCHER

CV 66/2 - Upright vacuum with dual counter-rotating brushes for deep cleaning of all types of carpets. Ideal for large surfaces.

CHARIOT 2 IVAC 24 ATV and CHARIOT 3 CV 86/1 - Multi-surface stand-on vacuum with side brush and dual cylindrical counter-rotating brushes. Great for picking up small debris and for cleaning large surfaces in shorter times.

KÄRCHER

Whatever the cleaning task, we have the solution.

Heavy Duty Pressure Washer

Heavy Duty Pressure Washer

Dry Ice Blaster

WHY USE A MECHANICAL SWEEPER?

Much faster and more efficient than traditional brooms. Safer and more productive. Can be used both indoors and out, on hard surfaces and on carpets. Better scrubbing action: Roller brush operates at a higher speed and applies more pressure than traditional push brooms. Certain models feature filtration systems and vacuum motors for better cleaning and less dust kicked up into the air.

SR-239 B - Sub-compact ride-on mechanical sweeper. Great for carpets and light-to-medium cleaning.

SR-341 B - Compact mechanical sweeper. Ideal for more intensive industrial or outdoor cleaning.

SANI MARC

SW-226 BT - Compact walk-behind mechanical sweeper. Great choice for carpets and heavy-duty cleaning.

CARPET CARE

Both routine and deep cleaning are essential for keeping carpets looking their best. Extraction or encapsulation is a great way to pick up the dirt, germs and spores that routine vacuuming and manual cleaning leave behind.

HOW TO CHOOSE THE RIGHT MACHINE

<p>Canister or rotary jet extractor</p>	<p><i>Machine uses pressure to apply cleaning solution while simultaneously vacuuming up dislodged dirt and excess solution. External cleaning tools connect to the extractor with a hose. Tank size and water pressure may vary from one model to the next. Some models have adjustable water pressure for extra versatility. Quality of accessories can influence ease of use and cleaning ability. Canister extractors are generally lighter than self-contained/with brush extractors. Consider size and shape of accessories, which can help to increase versatility.</i></p>
<p>Self-contained/with brush extractors</p>	<p><i>Cleaning solution is pumped from the solution tank to the brush, which agitates the carpet to create a mechanical cleaning action in addition to water pressure. Vacuum shoe collects dirty water and sends it to the recovery tank. Machines are fully autonomous; no hoses or other accessories to fuss with. However, an optional hose can be fitted on most machines for cleaning upholstery or better reaching corners and other hard-to-reach spots. Brush lifts carpet pile for quick and effective cleaning, making these machines ideal for larger surfaces. Brush and tank sizes vary. Some models offer encapsulation as well. Choice of single or dual brushes for more effective mechanical action.</i></p>
<p>Encapsulation</p>	<p><i>"Encapping" is an ultra-low moisture type of cleaning that uses polymers to encapsulate and crystallize dirt for immediate vacuuming. Shortens cleaning and drying time while improving the appearance of carpets. Compared to extraction, encapping typically requires less user training and floors can be used sooner.</i></p>

KÄRCHER

CADET 7 - Robust and ergonomic extractor designed for deep carpet cleaning. Includes attachment for external accessories.

CLIPPER 12 - Ergonomic and easy-to-use extractor with intuitive controls. Flip handle lets you steer machine with a push or pull motion to increase productivity.
