

## Sale Sheet

### DILUTION SYSTEM

# PRO+Fil<sup>®</sup> MD

(1, 2, 4 or 8 products)

Optimize your operations,  
control your costs, and  
enhance safety every day

Designed for environments where efficiency, reliability, and cost control are critical, the PRO+FIL dilution system provides a flexible, high-performance solution for dispensing up to eight cleaning and sanitizing products from a single system.

Safe and secure, it eliminates direct contact with cleaning and sanitizing products, reducing the risk of accidents and enhancing workforce productivity.

### Recommended for:

Hospitals and Healthcare Facilities

Senior Living Facilities

Schools

Commercial and Industrial Facilities

Hotels and Restaurants

Food & Beverage Plants

# Even More Reasons to Choose PRO+FIL®

With its precise dilution, lockable enclosure, and design built for high-volume environments, **PRO+FIL® simplifies daily operations** while delivering consistent results. Available in 1-, 2-, 4-, or 8-product configurations, it efficiently dispenses your 3 L concentrated cleaning products while optimizing organization, safety, and team productivity.

## Precision

Consistent, accurate dilution thanks to an integrated regulator.

→ Minimize waste and ensure consistent product performance.

## Safety

No direct handling of concentrated products.

→ Minimize handling and promote safer workplace practices.

→ Limit access to concentrated products with the lockable enclosure.

## Operational Efficiency

An intuitive, easy-to-use system.

→ Simplify daily operations and reduce the time required for training and solution preparation.

## Cost Reduction

Precise dosing control and use of concentrated products.

→ Reduce waste caused by over-dosing, minimize packaging, and optimize operating costs.

## 3L products compatible with the PRO+FIL®

\*Note: 1 spray bottle = 1 L and 1 bucket = 10 L

# A Customized Solution for Maximum Efficiency

By choosing  
Sani Marc® | Wood Wyant®  
for your dilution solutions  
you benefit from:

- Personalized expertise to assess your needs and recommend the solution that best fits your operations.
- Turnkey implementation, from installation to system start-up.
- Ongoing support, including user training and technical assistance.
