Why Choose PRO+FIL® TETRA

With its compact design, precise dilution, and space-saving configuration, **PRO+FIL® TETRA** **simplifies daily operations** while delivering consistent results. Designed to dispense up to four 3 L concentrated cleaning products, it maximizes available space while enhancing safety and team efficiency.

Precision

Consistent, accurate dilution thanks to an integrated regulator.

→ Minimize waste and ensure consistent product performance.

Safety

No direct handling of concentrated products.

→ Minimize handling and promote safer workplace practices.

→ Limit access to concentrated products with the lockable enclosure.

Operational Efficiency

An intuitive, easy-to-use system.

→ Simplify daily operations and reduce the time required for training and solution preparation.

Space-Saving

A compact wall-mounted design that maximizes available space.

→ Perfect for tight spaces or locations where multiple stations are needed.

Cost Reduction

Precise dosing control and use of concentrated products.

→ Reduce waste caused by over-dosing, minimize packaging, and optimize operating costs.
