Why Choose PRO+S

With its portable design, **PRO+S allows dilution operations to be performed directly at the point of use.** It facilitates mobility, improves team efficiency, and adapts to a variety of work environments. Safe and secure, it eliminates direct contact with cleaning and sanitizing products, reducing the risk of accidents and enhancing workforce productivity.

Mobility

Its portable design allows dilution operations to be performed directly at the point of use.

Versatility

Compatible with a wide range of containers and applications, it enables direct filling of buckets, autoscrubbers, and other equipment requiring diluted solutions.

Ergonomics

Automatic flow control and the bucket attachment system enhance user comfort and simplify filling operations.

Consistent Dilution

Ensures precise and consistent dosing of cleaning and sanitizing products, even with fluctuations in water pressure.

Versatility and Ease of Use

Quick installation in **5 easy steps.**

Select the Container

Choose the appropriate product container for use with PRO+S.

Secure the Dispenser

Screw the PRO+S directly onto the container.

Stabilize the Unit
