FOOD & BEVERAGE

Maximize your efficiency with smart.level™

Transform your logistics management
with the help of level probes

Discover smart.level™, the intelligent solution for managing your cleaning and sanitizing product consumption. Made up of a system of innovative measuring probes, smart.level™ intuitively simplifies and optimizes your logistics management.

Monitor your product levels in real time using the integrated probes, so you know when to place an order, and when to replace your containers.

There's no need to worry about keeping track of your chemical consumption. smart.level™ technology helps you control your supply intelligently and strategically, leaving your staff free to spend their time on what's important.

SANI MARC
